WHAT I'VE LEARNED SO FAR and WHY I'M OPTIMISTIC

PT. I

Anyone with two eyes can see that the Earth is in bad shape.

It's not that hard to figure out, really.

The Ozone Layer that protects Earth from cancerous solar radiation is unraveling faster than scientists predicted, due to chemical emissions from spray cans, autos, planes...

not to mention the burning of these 500 oil rigs in Kuwait which will take 3 to 5 years to pull out.

And that's just the tip of the iceberg. So how come we aren't doing something about it?

We're at a stage right now that if the people of the Earth organized, we could heal her!

So, why don't we? Sure, we can figure out how to set the Earth right! It's overcoming human stubbornness that's got us stumped!

Am I right?

The problem is that our thinking is stuck! We only use 5% of our brain capacity.

So... how come?

Hi! My name is Adam Twelve, and I'm a genetically engineered human—a clone!

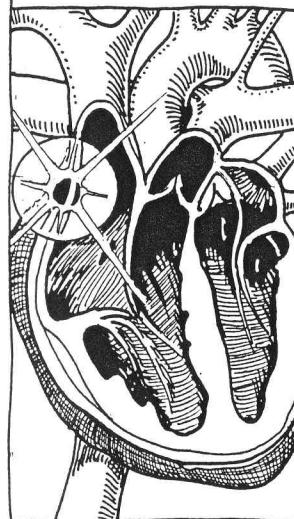

I'd like to show you something I've learned about our humanity that you oughtta know about.

At the left hand upper corner of the heart is a small cluster of nerves and muscle called the Sino-Atrial Node.

This node is the only tissue in your body that operates independently of the brain.

It is this node that beats the heart. Some call it the seat of the soul.

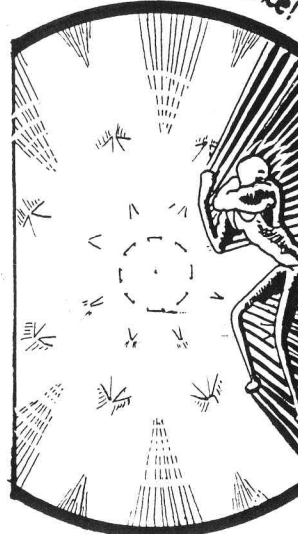

To see it with the uncorrupted eye of a child (or a clone like me) is to see it as it really is—the source of the life force.

Here in the very heart of the heart, the essence of life, radiates a celestial brilliance!

Call this light what you will, but to see it is to know its purity. It is wisdom; it is generosity, it is strength, it is beauty, it is love, it is creative and adroit.

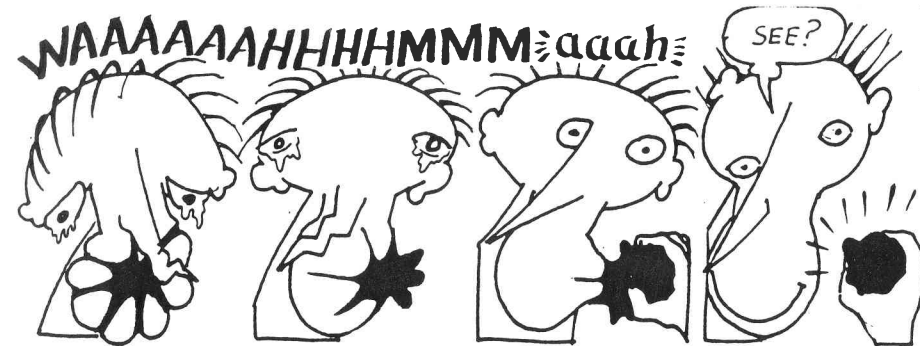

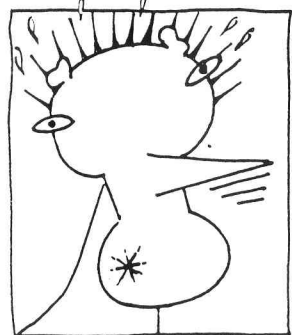

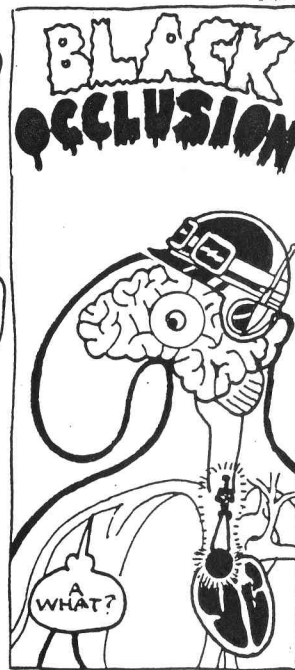

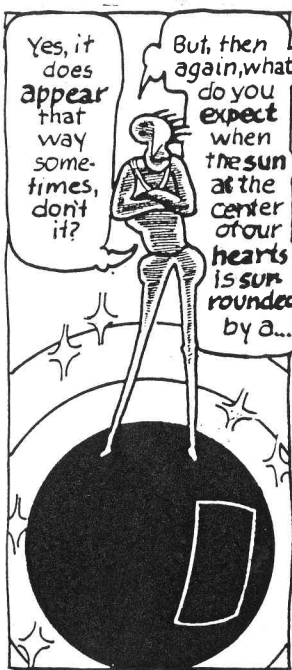

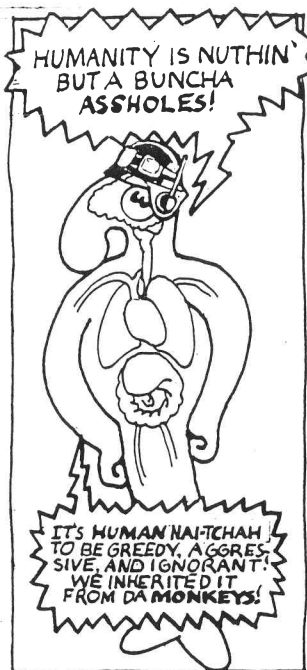

Because of it, we are all heroes and saints.

WILL YOU CUT ALL THAT NEW AGE CRAP, TWELVE?

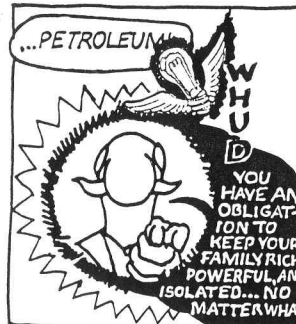

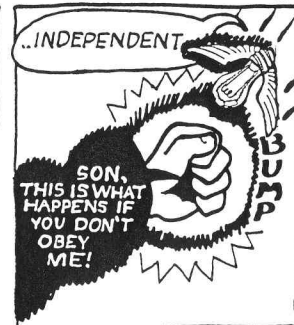

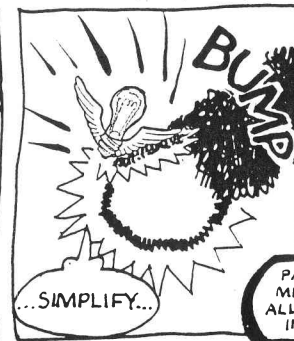

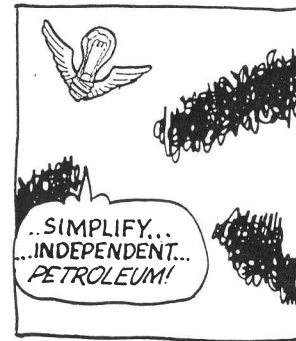

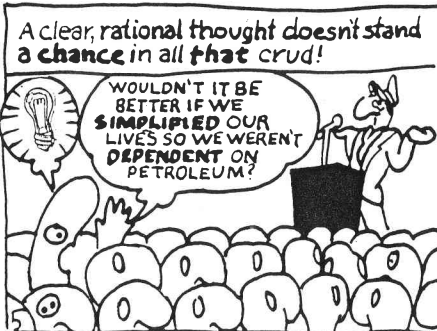

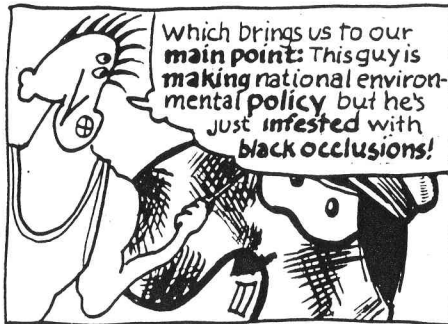

HUMANITY AIN'T MADE OF HEROES + SAINTS!

All we need to get that crap out of us is to fully experience our feelings on a day-to-day basis and tremble, sing, scream and cry that crud out of us!

So this little girl learns to survive by holding in her feelings which all turn into **more** of that rancid glop!

And when **she** grows up, she gets to be a mommy and dumps the same shit on her kid...

Looks like we're running out of **space** here. So, let me tell you **why** I'm optimistic...

I'm optimistic because the real problem with the environment is **stuck thinking** caused by **Black Occlusions**...

Get in touch with your **feelings**. Remember that beneath the **Black Occlusion**, you are a special being.

Yes you are! The **world will** heal if you will claim **your birthright** to live life fully! Don't let **any-thing** block you from crying, laughing and **screaming** out that **Black Occlusion**!

Healthy people do! And you don't have to do it alone, either! Nothing helps better than letting friends listen to you without judgement

Go for it! It's a beautiful thing to see **any person** recover their **full humanity**. It'll take time, but **what the hell!**

And the **Earth#love** you for it!
